## Update regarding Corona virus, Covid-19

Veddige 2020-04-28

To our customers

As the virus is continuing to spread through the world, the management of Eson Pac is still following the situation closely and take internal measures to limit the exposure of our employees. Should any of our employees catch the virus, plans are in place to handle the situation together with the health authorities.

Many businesses and people around the world, are being affected by this Covid-19. At present, we are grateful that Eson Pac is only mildly affected by this pandemic. This allows us to continue to serve our customers at a good level. Of course, we have some disturbances that affect, which are linked to authority restrictions, and we experience extended lead-times from some of our suppliers. Overall, we are happy to continue to supply our customers with essential packaging material for the Pharma packaging industry.
