

Eson Pac

Update regarding Corona virus, Covid-19

Veddige 2021-06-14

To our customers

The Covid-19 pandemic is not over yet, but as the number of vaccinated people around the world increases, the situation becomes more and more under control.

At Eson Pac we are still acting according to our Covid-restrictions, to limit the risks in our factories and offices. Guidelines are continuously designed in line with recommendations in our respective countries where we operate, we also adjust these guidelines when needed.

As many other businesses, Eson Pac is being affected by Covid-19. But we are grateful for our solid cooperation with our customers. This, alongside with the extra efforts from our co-workers, has been the key for us to be able to continue to serve our customers at a good level during this pandemic. We are happy to continue to supply our customers with essential packaging material for the Pharma industry.
